As a final year student of Federal University of Technology in the department of Computer Engineering, a Frontend Developer knowledgeable on HTML, CSS, JavaScript, Git version control system, Bootstrap and ReactJs, and also an aspiring Data Analyst who aims to be exceptionally good at manipulating data for insights. My goal is to be able to use my acquired skills in catering to key problems in Nigeria through technology, hence, contributing to the technological advancement of Nigeria and also making the lives of Nigerians and the world at large much more comfortable. I also enjoy collaborating in a team to bring lasting solutions to problems.
